## Manager's Lowdown

Greetings YLN Members,

Happy Fall! I can't quite say there's a chill in the air, but pumpkin spice is showing up just about everywhere, so I it can't be too far away. Here's your pumpkin-spiced September manager's update...

Chanel and I just returned from ConsortiaSIG at the SirsiDynix world headquarters in Salt Lake City. It was a productive session—we learned that StaffWeb is being end-of-lived and there will soon be a new GUI for the API. Chanel learned a trick to streamline making the monthly report in Analytics (yay!) and agreed with everyone there that responsive design for Enterprise is of primary importance.

Ethel had a check-up this month and some minor adjustments—I'm happy to say she received a clean bill-of-health and I've sent the Certificate of Completion in to Tech Logic.

In other Tech Logic news, we have received our CircTrac Shelf Manager from Tech Logic and it is out being tested by several of our libraries. If you'd like to try it for a few days, let us know ASAP and we'll get it over to you. I'd like as many libraries as possible to try it out in the first 30 days so we know for sure that it is a wise investment.

Have you all had a chance to try the new Kid's Catalog and roll it out to your patrons? I've heard several good reviews—if you missed the announcement, you can find it at [catalog.yln.info/client/kidcat](http://catalog.yln.info/client/kidcat). Just bookmark it and go!

Chanel is hard at work with SirsiDynix on our new BCMobile app. So far, it's looking great and while we have a few adjustments to make, it looks to be on track for an earlier release than we anticipated. We've ordered Syndetics Unbound to replace Novelist Plus as our enhanced content provider and can't release the app until that's in place.

Our DPLA trial is complete. I've sent the State

Library our grant report (\$10,000 for eBooks for the DPLA collection) and we hope to meet with DPLA in November to give our final feedback and suggestions. The YLN is the first library/consortium to conclude testing and provide feedback, so we are literally on the cutting edge when it comes to working on a new model for providing eMaterials to the public.

Our eMaterials working group that includes representatives from our public, K12, and academic libraries has begun to investigate and test additional eMaterials options for our membership. We are looking into additional ways to provide access to eMaterials to all our patrons in a cost-effective and impartial way.

In cataloging news, Eric has begun adding the Yavapai Law Library's materials to our catalog. They have previously been one of our sponsored libraries, but hope to join as a full member in November. (We'll vote on this at the Nov. 1 Steering Committee meeting.) You may notice the new library code LAW on some materials—these items that aren't available for check-out, but can be accessed by visiting the Yavapai Law Library at the county courthouse in Prescott.

I just sent out a letter requesting your FTE and CircIT license counts for 2018. I know it's earlier than usual to request these figures, but I also know that you're beginning to think about budgets and will be asking for your contribution figures soon.

And finally, in the words of Tyrion Lannister, "Sleep is good. And books are better."

~ Judy

# Prioritization

## Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

**Total requests submitted: 70**

**Total requests resolved: 55**

**Total unresolved requests opened this month: 15**

**Total requests still open: 42**

## Priority Three: Testing SimplyE

Partnering with the Digital Public Library of America (DPLA), the YLN will be testing SimplyE which allows patrons to view all our e-materials at one site.

**Goal:** Fully implement SimplyE at several pilot libraries

**Project Lead:** Chanel Wheeler

- Choose libraries to be the pilots
- Have pilot libraries test the DPLA Exchange
- Have pilot libraries test Circ Manager
- Have pilot libraries test SimplyE
- Give feedback to DPLA
- Meeting with DPLA about next steps

## Priority Two: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in WorkFlows.

**Goal:** Fully implement Blue Cloud Cataloging (BCC)

**Project Lead:** Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Note concerning prioritization: The priority of projects may shift as individual portions are completed.
