Subject: RE: Follow Up
Date: Friday, June 28, 2019 4:31:00 PM

Thank you, Denise for pulling together this list of action items from the June 12, 2019 meeting. I appreciate everyone's patience with me as I pulled together the information for my follow-up action items (#1, #4, and #5).

#4 - The most appropriate contact for the Arizona Department of Health Services (ADHS) work in Dewey-Humboldt is:

Eric T. Thomas, MSA
 Chief, Office of Environmental Health
 Arizona Department of Health Services
 Direct: 602-364-3142
 Email: Eric.Thomas@azdhs.gov

Another helpful contact for the site is our Agency for Toxic Substance and Disease Registry (ATSDR) colleague:

Ben Gerhardstein, MPH
 Environmental Health Scientist

Agency for Toxic Substance and Disease Registry
 Direct: 415-947-4316
bgerhardstein@cdc.gov

#1 – Here is what I could find out about previous health consultations in the community.

In 2012, ADHS issued a health consultation focused on air. Here is the report:

<https://www.azdhs.gov/documents/preparedness/epidemiology-disease-control/environmental-toxicology/iron-king-mine-humboldt-health-consultation.pdf>. In 2017, ADHS issued a health consultation focused on groundwater and the public drinking water system. Here is the report:

<https://azdhs.gov/documents/preparedness/epidemiology-disease-control/environmental-toxicology/iron-king-mine-humboldt-health-consultation.pdf>. It's important to note these public health consultations include *other* exposures in addition to the Iron King Mine/Humboldt Smelter Superfund site.

#5 – We are still working on our travel schedule this Fall. We were hoping to present to the Dewey-Humboldt Town Council on the progression of the Feasibility Study (which is a study of options to address the site contamination). Is there already a planned date of the September CEB meeting? We look forward to receiving information on action items #2 and #3.

Yolanda Anita Sanchez, MS, MPA

Subject: Follow Up

Hello Dewey-Humboldt Community Environmental Board Members and Friends:

I hope that all of you are doing well. I am following up regarding our last meeting with the "to do" items that were discussed. The following is a list with the names of people that were suggested that could provide the information:

1. Agency for Toxic Substances and Disease Registry and/or Arizona Department of Health Services previous health studies or consultations (Yolanda Sanchez / Monica Ramirez-Andreotta)
2. Brian Beck's presentation provided at the June 11th Community Meeting (Brian Beck / Ashley Preston)
3. Photographs / video of dust from smelter and tailing site with dates if possible (Ashley Preston / Ron Thibodeau)
4. Agency for Toxic Substances and Disease Registry, Arizona Department of Health Services, and/or Yavapai County contacts to either invite to a future board meeting or directly ask questions about future health studies (Yolanda Sanchez / Cecil Newell)
5. Future travel date (Fall 2019) for U.S. EPA to area (Yolanda Sanchez)

Anyone providing the information from the above list please reply to all so everyone is in the loop and can receive the information requested.

Just a friendly reminder to everyone that the Town Library contains the Superfund site repository that houses current information, technical reports, and reference materials regarding the Superfund site. In addition, the University of Arizona has their peer-reviewed publications at this repository that outline the results of previous health and environmental studies. Also, the Voices Unheard Project has a small resources page:

<https://voicesunheard.sites.arizona.edu/content/12>

Of course if I forgot something, please let me know so it can be added to the list!

Thank you all for being involved!

Regards,

Denise
