*Heather

We bought this list of names from Geoselector based on a box we drew. In our last mailing, we used this list along with our access database. There are likely some duplicates between the 2 lists - I haven't had a chance to work through that. Also, we got a few hundred returns from this mailing. We could either work through those hard copies, or change all the names to "current resident". I'll let you and Jeff decide.
