# MANAGER'S LOWDOWN

## Greetings!

## Koha Migration

The Koha migration really started to get underway in January! Michael Kucsak and Heather Rommens from ByWater came to Yavapai County for on-site process scoping and met with members of the Implementation Team for three days in the Library District meeting room. They wanted to examine how our processes work, in great detail. For example, what exact steps do we currently take to create a patron account? The idea is that ByWater will take our processes and see how Koha can best accomplish the same thing, focusing on the end results that we want to achieve. When they return for on-site training in May, they will have some 'best practices' for us.

To this:

That week we also visited several of our member libraries to meet staff, answer questions, and look more at processes. The weather was uncooperative, however, with snow preventing the full library tours that we had planned. The weather also interfered with Michael's flight home, so we were fortunate to have him stay an extra day! He came to the Steering Committee meeting to talk a little bit about the migration process, and we were able to stop by Embry-Riddle Aeronautical University on the way. I suspect visiting the Hazy Library was the highlight of his trip!

Karie

Michael put our processes together into diagrams which he then shared with us. I sent the diagrams out to the YLN for review a few weeks ago. If you haven't already checked them out, please do, and let us know if your library has any major deviations from what is on the diagram.

The process diagrams went from something like this:

# PRIORITIES

## Help Desk

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to [help@yln.info](mailto:help@yln.info). If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

**Total requests submitted: 79**

**Total requests resolved: 72**

**Total unresolved requests opened this month: 7**

**Total requests still open: 22**
