

Yavapai Library Network Monthly Report

July 2024

Koha Updates

PINs: In order to enhance the security of our integrated library system (ILS), shared logins will start requiring a PIN change every three months starting in August. Shared logins are the ones ending in CIRC, TECH, SUPER, etc.

Student Import Systems (SIS): With the school year beginning, ByWater is hard at work configuring the student import systems for each of our YLN schools. A few schools changed SIS's for this school year, so their data fields have to be remapped. This is a top priority for ByWater right now, so please be patient while they complete this process.

Reports: ByWater has been making steady progress with the long list of Symphony reports that they are converting over for Koha. During the migration ByWater was given a list of about 150 Symphony reports, along with a description of what information needs to be pulled from each report. They are working away at them, but it does take time to translate Symphony's reports to the SQL used by Koha. The two ILSes have different terminology (database schema) and different data structures. If your library needs a report to be prioritized and it hasn't been created already, please let us know!

Thank you for your continued patience through this process!

Up Next for the YLN

In September the YLN is beginning the process to update our strategic plan. The Steering Committee approved hiring Jonathan King from Signature Leadership to assist in the process.

Thank you!

PRIORITIES

Help Desk

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 154

Total requests resolved: 128

Total unresolved requests opened this month: 26

Total requests still open: 37
