

Yavapai Library Network Monthly Report

November
2025

Greetings,

I am honored and excited to begin my new role as Library Network Administrator for the Yavapai Library Network. I look forward to working with each member library to strengthen collaboration across our network and to continue developing innovative services that enrich the experience of our patrons.

Recent Highlights

- **Annual Report:** The YLN Annual Report is nearly complete—just awaiting a few final refinements. We anticipate sharing it with you in early December.
- **New Member:** We are delighted to welcome Bagdad Unified School District as the newest member of the YLN! They have brought over an impressive collection of more than 7,500 items, whose bibliographic records were carefully imported and enhanced to meet network standards. A heartfelt thank-you goes to the YLN/YCFLD team, whose dedication and expertise made this onboarding possible.
- **Product Transition:** As of December 12, BTCat will no longer be available. Nam, our current YLN Cataloger, worked with the Cataloging User Group to conduct a thorough review of alternative products and presented their findings to the Steering Committee on November 17. After thoughtful discussion of the products' features, advantages, disadvantages, and costs, the Committee chose to move forward with SkyRiver—a cataloging software the network used between 2022 and 2024. We anticipate re-implementing SkyRiver in early January.
- **Bylaws & Committees:** On November 17, the Steering Committee also voted to dissolve the Executive Committee and update the Bylaws to better reflect the current needs of the YLN. This includes clarifying the role of user groups, their leadership, and meeting frequency.

Technical Enhancements

Karie, our system librarian, has been working diligently to strengthen our systems. Z39.50 is now enabled, and two MARC modification templates have been set up to help clean up records. These tools will be especially useful if there is a gap between BTCat's termination and SkyRiver's implementation. In addition, ByWater has increased the behind-the-scenes worker bees (i.e., parallel processing), which should improve background jobs' speed and record staging. If you still notice any issues, please let us know.

Looking Ahead

The 2026 meeting calendar will be posted soon, and I encourage you to consider how you might be able to contribute to the YLN's various user groups. We have a truly unique library consortium, and your involvement helps ensure our network remains strong—especially since we share so many patrons. When moving to Prescott in 2021, I was both surprised and inspired to discover the YLN's user groups. Serving as chair of the Circulation User Group between 2021 and 2022 gave me invaluable knowledge and skills, while also helping me develop strong working relationships with supervisors and managers across our libraries.

Opportunities

We are now seeking the next YLN Cataloger. Nam is currently serving as both YLN Cataloger and YCFLD Technical Services Manager. Thanks to recent restructuring, the new cataloger position will carry no supervisory responsibilities. If you are passionate about cataloging and serving the YLN, I warmly encourage you to apply.

Wishing you all a joyful holiday season!

—Minh Nguyen

Help Desk

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 51

Total requests resolved: 41
