Monthly Report

YLN

February 2026

YLN NEWS & EVENTS

Greetings,

February has been a busy month for the YLN team, marked by several key staffing changes and continued progress on our technical projects. As we move further into the year, we are focused on stabilizing our new workflows and ensuring the team is well positioned for long-term success. Below are the main updates from this month:

Recent Highlights

• **Staffing Updates:** We experienced several important shifts within our team this month. Karie Straube departed to pursue personal endeavors (see the January report for details), and Shane Erwin has officially stepped into his new role as Systems Librarian. While we continue interviewing candidates to fill his previous position, Shane is currently covering both roles. Additionally, Chuck Bebee, our long-time transit clerk, has transitioned to a seasonal role. We are actively interviewing for a new clerk to ensure our transit services continue to operate smoothly.

• **Cataloging Meeting & Ginney Bilbray:** We held a productive in-person cataloging meeting this month. It provided a valuable opportunity to resolve several ongoing issues and to formally introduce Ginney Bilbray to the group. Ginney is already doing excellent work, and the meeting helped align everyone for the projects ahead.

• **SkyRiver Status:** SkyRiver is now operational across the network. A few libraries with strict municipal firewalls are experiencing difficulties when using the editing tool. We are working closely with their IT departments and the SkyRiver team to resolve these issues.

Technical Enhancements & RFP Updates

• **OCLC Direct Import Issue:** We are currently experiencing technical issues with the OCLC direct import. Our team is working directly with ByWater Solutions to resolve the problem as quickly as possible, and we will provide an update once it is fixed.

• **Automated Circulation Solutions RFP:** The RFP for RFID equipment and AMH systems has moved into the evaluation phase. The committee is reviewing proposals carefully, and we anticipate having a recommendation ready for the Steering Committee soon.

Looking Ahead

In the coming weeks, our primary goals are to finalize our new hires and restore all technical tools to full functionality. We appreciate your patience as we navigate these staffing transitions and continue through the RFP process. Thank you for everything you do to support our libraries. Please feel free to reach out to me or the team with any questions.

Did You Know?

Did You Know?

The YLN/YCFLD technical services team provides cataloging services for 52 of the 57 libraries and locations in the network.

Of the libraries that use YLN cataloging support, 6 receive original cataloging only, and 46 receive both original and copy cataloging.

In addition to these services, the team maintains the quality and integrity of the shared catalog and assists members with a wide range of technical services requests, including interlibrary loan and acquisitions.

All of this work is accomplished by a small but highly skilled team: two professional catalogers, one copy cataloger, one interlibrary loan and acquisitions specialist, and two records technicians.

Help Desk

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 52
Total requests resolved: 41
Total unresolved requests opened this month: 8
Total requests still open: 11
